

RoHS and Reach Compliance Statement

Buckeye Fasteners, Inc. meets the criteria required by the REACH and RoHS directives, as it applies to certain restricted hazardous substances in the fasteners we currently sell. Parts that require plating with chromate treatments added are all supplied in RoHS acceptable Trivalent Chromate finishes. This includes the clear commercial zinc plating supplied by our outside plating vendors.

Buckeye Fasteners Products do not exceed the acceptable levels allowed for lead, mercury, zinc clear chromate, PBB, or PBDE.
